

# Xploite

Cloud based CRM

## ALL YOU NEED TO RUN YOUR BUSINESS

### Customer Management

Keep all your customer data in one place.  
Login from any internet enabled computer.

### Opportunity Management

Keep track of sales opportunities from initial quote to final sale.  
Create quotes at the click of a button.

### Purchase Order Management

Keep track of purchase orders and print/email your Purchase Order to the supplier at the click of a button.

### Product Management

Keep control of your products across multiple warehouses.  
Always know what you have in stock at any time.

### Sales Order Management

Keep track of sales orders from initial enquiry to delivery.  
Print delivery notes at the click of a button.

### Multiple Users

Add as many users as you need.  
All users have access to the same information and there is NO software to install.

### Customer Testimonials

As a small but rapidly expanding business ... it was important for us to establish ONE very efficient business platform that would enable us to manage as many aspects of our business through just one platform that was switched on and used all day and every day like email. It has become a pleasure to use XPLOITE every day ...

**Kieron Malloy – GTT Europe Ltd.**

A truly fantastic product!!!! We have moved our entire business operation to Xploite over the past 4 weeks. It was not only seamless but the benefits we have derived from this have been immense.

**Andy Bird – Dropout Europe Ltd.**
